Subject: RE: Draft Focused Feasibility Study for the United Heckathorn Superfund Site

Hi Rachelle,

Has the EPA identified an actual date by which you would like to receive comments. Our 60 day count falls on Sunday, April 26th.

Thanks,

Scott

Subject: Draft Focused Feasibility Study for the United Heckathorn Superfund Site

To all interested parties:

The Environmental Protection Agency (EPA) is issuing the Focused Feasibility Study (FFS) for the United Heckathorn Superfund Site as a draft document to facilitate collaboration with site stakeholders. The report is available at <http://www.epa.gov/region09/unitedheckathorn>. The draft FFS presents detailed site information and evaluates a range of cleanup alternatives, but does not propose a remedy. Please provide any comments within 60 days. Once EPA finalizes the report and issues a Proposed Plan, there will be a formal public comment period regarding remedy selection. If you have any questions, please contact me at 415-972-3962 or the Community Involvement Coordinator Jackie Lane at 415-972-3236. If you have legal questions, please contact Taly Jolish at 415-972-3925.

Sincerely,

Rachelle Thompson, MS, PE
